

As part of the certification process, you will be required to submit a minimum of 3 case studies which are to be followed with supervision from the beginning to the end of their program.

Supervision is initiated by submitting the form provided. Please type directly on the form, which is accessible via our website.

This information may be emailed to rminson@integratedlistening.com. **Once you have sent all the information, please contact Dr. Minson by phone (303-320-4411), or the above email address, to arrange an appointment time.** Please give him a few available times. We allow 15 minutes per case. Your own program, and those of immediate family members, is not considered one of the three for supervision.

Please allow at least 48 hours for Dr. Minson to review case summaries. (If you anticipate sending cases, you may wish to contact him in advance to make certain Dr. Minson does not have a training or travel conflict.)

He will confirm the telephone number and time you are to call.

A reminder: completion of your own program is necessary to receive certification. If you want us to check your program selection, you may send a summary and recommendation, and we will send you a response.

Additional supervision may be contracted in quarter hour increments at \$200/hr.
